EDUCATION

F.Sc(Pre-Medical)

Alpine Degree College KhanPur

2021 - 2023

PERSONAL PROJECTS

Website Designs

- I have created many designs that focus on delivering clean, modern, and user-friendly interfaces

Weather App

- I have created Weather App with API integrated that shows Location based Weather and Weather Forecast

E-Commerce App

- This app has Product Catalog with search and Filter, Shopping Cart and User Accounts

Contacts App

- A simple Contact App with Elegant Design

To Do List App

- This app has intuitive interface, User Authentication, Categories with Due Dates and Reminders

DishSync App

- This app saves recipes with step by step ingredients and Categories that user saves for Future

Installments App

- This app is for People who deal with installments. This app calculates Total price with markup and Monthly installments based on Duration with user Authentication and Customer Details with Installments History

PrayerTiming

- This App tells Muslim Prayer timings based on Location and also tells Next Prayer and Current Prayer time with Decent Design

Chat App

- This App has User Authentication and Chats with Different People in which you can also send and Receive images
